

Dear Valued Customer,

The environment in which we all operate continues to shift which is causing many more pivots to the entire foodservice segment once again however, Sysco Canada continues to prioritize and support the Healthcare and Senior Living segment during these challenging and rapidly changing times.

Sysco's mission is to be our customers' most valued and trusted business partner. We are proud of the partnerships that we have built and want to emphasize that we are in a very good position to service your needs. We are here to serve you.

Our 89-dedicated healthcare and senior living associates along with all of our Sysco support associates coast to coast, share your goals of keeping your residents and staff healthy and safe during the coming days, weeks and months. We are committed to working with our vendor partners on the supply chain needs which enable us to deliver what you were expecting.

We will continue to communicate directly with you as the situation evolves and ask that you continue to provide us feedback and share any changes to your daily operations so that we can flex our service model appropriately.

Respectfully,
Sarah Emmerton and Lindsay Grainger
Co-Vice Presidents of Healthcare and Senior Living, Sysco Canada.
