**TwoCal HN / MedPass**

Giving your Patients the Extra Nutrition they Need

**TwoCal HN**

- 2 Cal/mL
- 84 g of protein/L
- Fortified with taurine and carnitine to help prevent deficiencies associated with long-term tube feeding
- Provides scFOS

**For patients with:**

- Increased energy and protein requirements
- Fluid restrictions or volume sensitivity
- Dysphagia (nectar-like consistency)
- Poor compliance to nutrition treatment due to: poor appetite, early satiety, inability to feed themselves, memory problems

**Suggestions for oral use:**

- Serve chilled, blended with ice, or warmed
- Mix with foods, such as fruits, smoothies, coffee, soups, cereals, etc.
- Freeze to make tasty ice pops
- Add natural or artificial flavours (chocolate, honey, almond, etc.) to decrease flavour fatigue
- As part of the Nutrition MedPass Program

**Nutrition MedPass Program**

A proven approach to malnutrition in long-term and acute care

**Program description**

60 mL of TwoCal HN provides 121 calories and 5.1 g of protein

- 60 mL QID of TwoCal HN distributed along with the patient’s daily medication by the nurse
- TwoCal HN is perceived as part of the medical treatment rather than as an optional snack
- Small amounts of TwoCal HN do not interfere with appetite at meal time
- The pharmacist reviews the patient’s medication to ensure there are no drug-nutrient interactions
